

Fonts

The fonts used are free you can download at:

Roboto

<http://www.fontsquirrel.com/fonts/roboto>

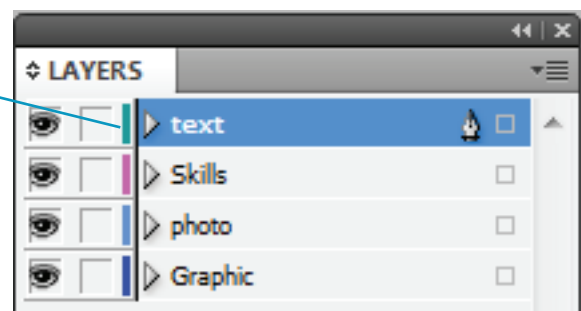

open-sans

<http://www.fontsquirrel.com/fonts/open-sans>

Working with text

1 In **Layer Palette** select **TEXT** layer.

2 Use the **Type** tool  click inside the text frame.
Delete the existing text and place your text with **Place command** or type it.

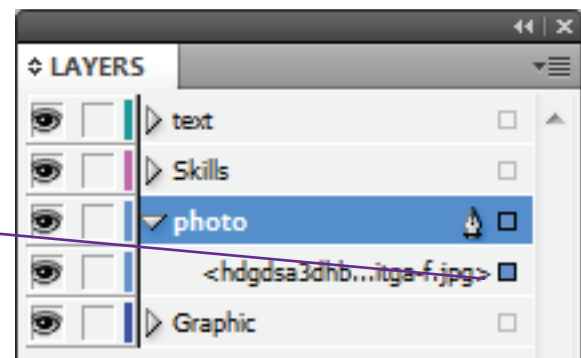

Note ; The frame layer is locked
to unlock just click in

Replacing Image

In **Layer Palette** select **PHOTO** layer.

To replace an existing image, go to **File > Place** and select your image, hold down **Alt** (Windows) or **Option** (Mac OS) and click the loaded image icon on the image you want to replace.

To adjust or resize imported content without moving the frame, use the **Direct Selection** (that automatically changes to the **Hand tool**  when placed over an imported image).

WORD

Before starting download the fonts

The fonts used are free you can download at:

[roboto](http://www.fontsquirrel.com/fonts/roboto)

<http://www.fontsquirrel.com/fonts/roboto>

[open-sans](http://www.fontsquirrel.com/fonts/open-sans)

<http://www.fontsquirrel.com/fonts/open-sans>

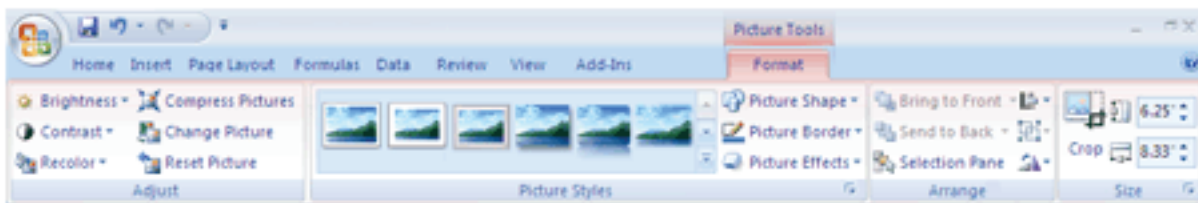

Replacing text is very easy

Just delete the dummy text and replacie with yours
